

Residential/Commercial Framers

Job Overview

Timber Mountain Construction completes various framing projects around the Gallatin Valley. We are a locally-owned, small business established in 2016. Our focus is on residential and custom framing although we also can complete commercial projects and custom timber framing requests. This position will provide framing support to the team and will include reading and interpreting construction plans. While previous carpentry experience is preferred, we are willing to train the right people!

Positions Available

- Lead Carpenter
- Apprentice carpenters
- Laborer
